

## TABLE OF CONTENTS

|   |    |
|---|----|
| <i>Soft consensus dynamics in group decision making</i> .....                           | 17 |
| M. Fedrizzi, M. Fedrizzi and R.A. Marques   |    |
| <i>Collective choice rules: a classification using the OWA operators</i> .....          | 21 |
| S. Zadrozny and J. Kacprzyk   |    |
| <i>On relationships between goals for aggregation in decision making</i> .....          | 25 |
| R. Felix  |    |
| <i>On coherence measures for finite fuzzy sets</i> .....                                | 29 |
| A. Sancho-Royo and J.L. Verdegay  |    |
| <i>Free MV-algebras</i> .....   | 33 |
| A. Di Nola and R. Grigolia  |    |
| <i>QBL: towards a logic for left-continuous t-norms</i> .....                           | 35 |
| F. Esteva and L. Godo   |    |
| <i>Normal forms for fuzzy logic relations and the best approximation property</i> ..... | 39 |
| I. Perfilieva   |    |
| <i>Fuzzy algebras as models of fuzzy theories</i> .....                                 | 43 |
| V. Novák  |    |
| <i>Systems of ordinal fuzzy logic with application to preference modelling</i> .....    | 47 |
| B. De Baets, F. Esteva, J. Fodor and L. Godo  |    |
| <i>Fuzzy logic controlled model car</i> .....   | 51 |
| G. Aranguren, L. Nozal, M. Rodríguez and E. García                                      |    |
| <i>A new algorithm for the design of Mamdani-type fuzzy controllers</i> .....           | 55 |
| J.J. Saade  |    |
| <i>Safety regulations and fuzzy-logic control to nuclear reactors</i> .....             | 59 |
| Da Ruan   |    |
| <i>Using driving behavior models for autonomous mobile robot navigation</i> .....       | 63 |
| A. Mandow, M.J. López-Baldán and A. García-Cerezo                                       |    |
| <i>Many-valued similarity modelling traffic signal control</i> .....                    | 67 |
| J. Niittymäki and E. Turunen  |    |
| <i>On the stability of T-S fuzzy control for non-linear systems</i> .....               | 71 |
| Z. Doulgeri and J.B. Theocharis   |    |
| <i>Which triangular norms are convenient for fuzzy controllers?</i> .....               | 75 |
| B. Moser and M. Navara  |    |
| <i>Contradiction sensitive fuzzy model-based adaptive control</i> .....                 | 79 |
| P. Carmona and J.M. Zurita  |    |
| <i>Knowledge based evaluation of knowledge bases</i> .....                              | 83 |
| J. Cañada and L. Magdalena  |    |
| <i>A two-rule-based fuzzy controller for the TORA system</i> .....                      | 87 |
| C. Mélin and B. Vidolov   |    |

|  |     |
|--|-----|
| <i>Learning behaviour fusion in autonomous mobile robots</i> .....                                       | 91  |
| A. F. Gómez-Skarmeta, H. Martínez and M. Sánchez   |     |
| <i>Real time navigation of autonomous robot with fuzzy controller and ultrasonic sensors</i> .....       | 95  |
| O. Calvo, G. Rodríguez and R. Picos  |     |
| <i>Fuzzy logic based look-up table regulator</i> .....   | 99  |
| M. Olivares, P. Albertos and A. Sala   |     |
| <i>Tuning fuzzy logic controllers for energy efficiency consumption in buildings</i> .....               | 103 |
| R. Alcalá, J. Casillas and A. González   |     |
| <i>A method for selection of PID control strategy based on fuzzy behaviour modelling</i> .....           | 107 |
| J.L. Lozano, F. Mesa and L. Marín  |     |
| <i>An overview of stability analysis of MIMO fuzzy control systems</i> .....                             | 111 |
| F. Cuesta, A. Ollero, J. Aracil and F. Gordillo  |     |
| <i>Rule base reduction on a self-learning fuzzy controller</i> .....                                     | 115 |
| R. Ferreiro, X.C. Pardo and J. Vidal   |     |
| <i>Design of fuzzy adaptive controllers of reduced rule base</i> .....                                   | 119 |
| R. Ferreiro, X.C. Pardo and J. Vidal   |     |
| <i>Primeras experiencias del coprocesador ORBEX en el control de vehículos sin conductor</i> .....       | 123 |
| R. García and T. De Pedro  |     |
| <i>Linguistic approach for interpolative reasoning</i> .....   | 127 |
| N. Mellouli and B. Bouchon-Meunier   |     |
| <i>Semántica denotacional de lenguajes con datos borrosos</i> .....                                      | 131 |
| D. Sánchez and A.F. Gómez-Skarmeta   |     |
| <i>On normalised fuzzy systems for fuzzy control</i> .....   | 135 |
| F. Matía, B.M. Al-Hadithi and A. Jiménez   |     |
| <i>Fuzzy deductive reasoning and analogical scheme</i> .....   | 139 |
| B. Bouchon-Meunier, J. Delechamps, C. Marsala, R. Mesiar and M. Rifqi                                    |     |
| <i>Automatic process for the synthesis of fuzzy systems from input-output data</i> .....                 | 143 |
| C. Garriga-Berga   |     |
| <i>Reaching consensus when experts use different linguistic terms</i> .....                              | 147 |
| A. Valls and V. Torra  |     |
| <i>Fuzzy components for negotiating agents architectures</i> .....                                       | 151 |
| N. Matos and C. Sierra   |     |
| <i>Deliberative automated negotiators using fuzzy similarities</i> .....                                 | 155 |
| C. Sierra, P. Faratin and N.R. Jennings  |     |
| <i>Influence of fuzzy partition granularity on fuzzy rule-based system behaviour</i> .....               | 159 |
| O. Cerdón, F. Herrera and P. Villar  |     |
| <i>Characterisation of implication operators in fuzzy rule based systems from basic properties</i> ..... | 163 |
| O. Cerdón, F. Herrera and A. Peregrín  |     |
| <i>Use of fuzzy temporal rules for avoidance of moving obstacles in mobile robotics</i> .....            | 167 |
| M. Mucientes, R. Iglesias, C.V. Regueiro, A. Bugarín, P. Cariñena and S. Barro                           |     |

|   |     |
|---|-----|
| <i>A language for expressing expert knowledge using fuzzy temporal rules</i> .....                  | 171 |
| P. Cariñena, A. Bugarín, M. Mucientes and S. Barro  |     |
| <i>Knowledge based supervised classification: an application to image processing</i> .....          | 175 |
| A. Borgi and H. Akdag   |     |
| <i>Resolución de un programa lineal posibilístico mediante programación compromiso</i> .....        | 179 |
| M. Jiménez, M. Arenas, A. Bilbao and M.V. Rodríguez   |     |
| <i>Una metodología de construcción de sistemas de clasificación basados en reglas difusas</i> ..... | 183 |
| J.M. Fernández, J.M. Benítez and I. Requena   |     |
| <i>Stock price forecasting: autoregressive modelling and fuzzy neural network</i> .....             | 187 |
| D. Marcek   |     |
| <i>Modelo de procesamiento rule-driven para sistemas con T-norma genérica</i> .....                 | 191 |
| E. Frías, J. Gutiérrez and F. Fernández   |     |
| <i>Rules evaluation of a knowledge base</i> .....   | 195 |
| S. García and J.R. Velasco  |     |
| <i>Defuzzification and chaining of rules in hierarchical fuzzy systems</i> .....                    | 199 |
| A. Dvorák and D. Jedelský   |     |
| <i>Observational entropy: entropy in the context of indistinguishability operators</i> .....        | 203 |
| E. Hernández and J. Recasens  |     |
| <i>Inmersión de W-particiones en un espacio producto</i> .....                                      | 207 |
| J. Recasens and A. Rodríguez  |     |
| <i>On the construction of M-transitive relations</i> .....  | 211 |
| J. Jacas and J. Recasens  |     |
| <i>Representations and constructions of strongly linear fuzzy orderings</i> .....                   | 215 |
| U. Bodenhofer   |     |
| <i>Divergence measures and aggregation operations</i> .....   | 219 |
| P. Miranda, E. Torres and P. Gil  |     |
| <i>Divergence measures based on <math>T_\infty</math></i> .....                                     | 223 |
| E. Torres, P. Miranda and P. Gil  |     |
| <i>Relationships between uncertainty measures, fuzziness measures and divergence measures</i> ..... | 227 |
| S. Montes, I. Couso and P. Gil  |     |
| <i>Local divergence measures on infinite referentials</i> .....                                     | 231 |
| J. Jiménez, S. Montes and C. Bertoluzza   |     |
| <i>On measuring <math>\mu</math>-T-conditionality of fuzzy relations (Part II)</i> .....            | 235 |
| L. Garmendia, E. Trillas and A. Salvador  |     |
| <i>On the equivalence between distances and T-indistinguishabilities</i> .....                      | 239 |
| E. Trillas, E. Castiñeira and A. Pradera  |     |

|  |     |
|--|-----|
| <i>A new semantics for the division of fuzzy relations in relational databases</i> .....                     | 243 |
| P. Bosc and O. Pivert  |     |
| <i>Contextos ponderados</i> .....  | 247 |
| A. Burusco and R. Fuentes  |     |
| <i>UNFUZZY: fuzzy logic system analysis, design, simulation and implementation software</i> .....            | 251 |
| O.G. Duarte, G. Pérez  |     |
| <i>Deformed fuzzy automata for the text error correction problem</i> .....                                   | 255 |
| J. Echanobe, J.R. Garitagoitia and J.R. González de Mendivil   |     |
| <i>Fuzzy colour distance applied to region growing in image processing</i> .....                             | 259 |
| R. Soria, A. Sanchis and J.M. Molina   |     |
| <i>Soft computing as a methodology for color processing</i> .....  | 263 |
| L. Hildebrand and M. Fathi   |     |
| <i>Criterios de parada difusos en el problema de la mochila</i> .....  | 267 |
| J.L. Verdegay and E.R. Vergara   |     |
| <i>Linguistic variables determination using fuzzy clustering</i> .....                                       | 271 |
| A. Flores-Sintas, J.M. Cadenas and F. Martín   |     |
| <i>Fuzzy reasoning in K-means classification method</i> .....  | 275 |
| I. Díaz, M. Velasco and J.M. Molina  |     |
| <i>A survey of methods for evaluating quantified sentences</i> .....   | 279 |
| M. Delgado, D. Sánchez and M.A. Vila   |     |
| <i>Evaluating reliability and relevance for WOVA aggregation of sleep apnea case data</i> .....              | 283 |
| D. Nettleton and L. Hernández  |     |
| <i>Implementing a fuzzy processor on programmable logic circuits: modularization criteria</i> .....          | 287 |
| E.M. López, A. Aniorte and R. Ruiz   |     |
| <i>Using fuzzy logic to implement adaptability in WAY-Z39.50</i> .....                                       | 291 |
| C. Fernández, V. Matellán, I. Aedo and P. Díaz   |     |
| <i>Generation and extension of maps obtained by autonomous robots</i> .....                                  | 295 |
| M. López-Sánchez, R. López de Mántaras and C. Sierra   |     |
| <i>Theory and application of multiple-valued logics for knowledge-based systems</i> .....                    | 299 |
| J.A. Reyes, F. Esteva and J. Puyol-Gruart  |     |
| <i>Axiomatizing t-norm based logic</i> .....   | 303 |
| S. Gottwald  |     |
| <i>High performance fuzzy ASIC</i> .....   | 307 |
| L. Salvador, P. Bernad and D. Madroño  |     |
| <i>Lógica fuzzy y automatización: ¿Perversión lógica o revolución informática?</i> .....                     | 311 |
| C. Ortiz   |     |
| <i>Lógica borrosa e interpretación correspondentista de la teoría semántica de la verdad de Tarski</i> ..... | 315 |
| M.T. Casparri, P.S. García and L.L. Lazzari  |     |

|   |     |
|---|-----|
| <i>Fuzzy logic abduction</i> .....  | 319 |
| P. Vojtás   |     |
| <i>The distribution problem in management accounting with genetic algorithm and fuzzy sets</i> .....  | 323 |
| E. López, M.A. Rodríguez, C. Mendaña and R. Flórez  |     |
| <i>A genetic fuzzy classifier to adaptive user interest profiles with feature selection</i> .....     | 327 |
| M.J. Martín-Bautista, M.A. Vila and H.L. Larsen   |     |
| <i>Fuzzy classifier induction with GA-P algorithms</i> .....  | 331 |
| L. Sánchez and S. García  |     |
| <i>Learning queries for a fuzzy information retrieval system by means of GA-P techniques</i> .....    | 335 |
| O. Cordon, F. De Moya and C. Zarco  |     |
| <i>Aggregation functions and fuzzy measures: the multi-dimensional case</i> .....                     | 339 |
| M. Mas, G. Mayor and J. Suñer   |     |
| <i>Generalised qualitative utility functions for representing partial preferences relations</i> ..... | 343 |
| L. Godo and A. Zapico   |     |
| <i>Classifying qualitative information using centroid based methods</i> .....                         | 347 |
| V. Torra and L. Godo  |     |
| <i>Triangular norms on the real unit square</i> .....   | 351 |
| B. De Baets and R. Mesiar   |     |
| <i>Generated aggregation operators</i> .....  | 355 |
| M. Komorniková  |     |
| <i>Smooth associative operations on finite chains</i> .....   | 359 |
| J. Fodor  |     |
| <i>Distance aggregation operators</i> .....   | 363 |
| T. Calvo and R. Mesiar  |     |
| <i>Characterization of commonotone aggregation operators</i> .....                                    | 367 |
| P. Benvenuti, D. Vivona and M. Divari   |     |
| <i>(S,U)-integral</i> .....   | 371 |
| E.P. Klement, R. Mesiar and E. Pap  |     |
| <i>Convexity of fuzzy coalition games</i> .....   | 375 |
| M. Mares  |     |
| <i>Balancing property of fuzzy measures</i> .....   | 379 |
| T. Calvo, J. Martín, G. Mayor and J. Torrens  |     |
| <i>Entropy of a Choquet capacity</i> .....  | 383 |
| J.L. Marichal and M. Roubens  |     |
| <i>Generating Hasse trees of fuzzy preorder closures: an algorithmic approach</i> .....               | 387 |
| H. Naessens, B. De Baets and H. De Meyer  |     |
| <i>Algorithms to extend crisp functions and their inverse functions to fuzzy numbers</i> .....        | 391 |
| O.G. Duarte, M. Delgado and I. Requena  |     |

|   |     |
|---|-----|
| <i>Embedding some families of fuzzy relations in the class of fuzzy consequence operators</i> .....   | 395 |
| J. Elorza and P. Burillo  |     |
| <i>Fuzzy arithmetic and fuzzy ranking: a nonstandard approach</i> .....   | 399 |
| L. Marín and F. Mesa  |     |
| <i>Exchangeability of expectation, differential and support function</i> .....  | 403 |
| L.J. Rodríguez-Muñiz, M. López-Díaz and M.A. Gil  |     |
| <i>The cardinality of a fuzzy subset as a part of the cardinality of the whole fuzzy set</i> .....  | 405 |
| P. Canet and J. Casasnovas  |     |
| <i>Cuts, slices and computability</i> .....   | 409 |
| R. Morales, J.L. Pérez, F. Triguero and R. Conejo   |     |
| <i>On the symmetry of fuzzy sets</i> .....  | 413 |
| V. Gisin  |     |
| <i>On a similarity ratio</i> .....  | 417 |
| E. Castiñeira, S. Cubillo and E. Trillas  |     |
| <i>On implicative closure operators in approximate reasoning</i> .....  | 421 |
| R.O. Rodríguez, F. Esteva, P. García and L. Godo  |     |
| <i>On (S,N)-implications in fuzzy logic consistent with T-conjunctions</i> .....  | 425 |
| C. Alsina and E. Trillas  |     |
| <i>Fuzzy projective geometries</i> .....  | 429 |
| L. Kuijken  |     |
| <i>Properties of the fuzzy compositions based on aggregation operators and its pseudocomplement</i> .....   | 433 |
| M. Portilla and P. Burillo  |     |
| <i>Una familia de medidas difusas asociada a cada evidencia</i> .....   | 437 |
| J.A. Herencia and M.T. Lamata   |     |
| <i>Representación de conceptos difusos mediante índices semánticos</i> .....  | 441 |
| L.J. Linares and J.A. Olivas  |     |
| <i>Una estructura ordenada en operadores de la morfología matemática</i> .....  | 445 |
| P. Burillo, N. Frago and R. Fuentes   |     |
| <i>Decision support system based on fuzzy knowledge applied to a software factory</i> .....   | 449 |
| F. Chamorro, F. García, A. Sanchis and J.M. Molina  |     |
| <i>A selection method based on the 2-tuple linguistic representation model for decision-making problems with multi-granularity linguistic information</i> ..... | 453 |
| F. Herrera and L. Martínez  |     |
| <i>Probability of intuitionistic fuzzy events and their applications in decision making</i> .....   | 457 |
| E. Szmídt and J. Kacprzyk   |     |
| <i>The optimization of capacity utilization with a fuzzy decision support model</i> .....   | 461 |
| R. Felix  |     |
| <i>Virtual reality system "robot-secretary": methodological problems and neuro-fuzzy approach</i> .....   | 465 |
| D. Shapiro  |     |

|  |         |
|--|---------|
| <i>Generalized neural networks for fuzzy modeling</i> .....  | 469     |
| K.-H. Temme, R. Heider and C. Moraga   |         |
| <i>A link-pruning algorithm for neural networks</i> .....  | 473     |
| J.M. Benítez, J.L. Castro and C.J. Mantas  |         |
| <i>Fuzzy path tracking of autonomous vehicles using GPS</i> .....  | 477     |
| A. Rodríguez-Castaño, G. Heredia and A. Ollero   |         |
| <i>The application of generalised constraints to object-oriented database models</i> .....                           | 481     |
| G. De Tré and R. De Caluwe   |         |
| <i>Management of an estate agency allowing fuzzy data and flexible queries</i> .....                                 | 485     |
| J. Galindo, J.M. Medina, J.C. Cubero and O. Pons   |         |
| <i>Typicality based on soft aggregations in fuzzy object oriented databases</i> .....                                | 489     |
| G. Bordogna and G. Pasi  |         |
| <i>Implementation of an inference engine for fuzzy databases</i> .....   | 493     |
| I. Blanco, J.C. Cubero, F. Cuenca and O. Pons  |         |
| <i>Fuzzy clustering with weighting of data variables</i> .....   | 497     |
| A. Keller and F. Klawonn   |         |
| <i>Cluster validity for FCM clustering algorithm using uniform data</i> .....  | 501     |
| S. López, L. Magdalena and J.R. Velasco  |         |
| <i>Fuzzy clustering with ambiguity for multi-classifiers fusion:<br/>clustering-classification cooperation</i> ..... | 505     |
| V. Gunes, M. Ménard and P. Loonis  |         |
| <i>Fuzzy local regression models with fuzzy clustering</i> .....   | 509     |
| A.F. Gómez-Skarmeta, H. Martínez, J. Botía and M. Delgado  |         |
| <br><b>AUTHOR INDEX</b> .....  | <br>513 |
