Memorandum of Understanding (MoU) between the Spanish Society for Artificial Intelligence (AEPIA) and the European Society for Fuzzy Logic and Technology (EUSFLAT) to pursue a deeper relationship and collaboration between their members.

The **Spanish Society for Artificial Intelligence** (hereinafter, AEPIA) is a non-profit scientific society that aims to promote the development of Artificial Intelligence (AI) in Spain and Latin America.

The **European Society for Fuzzy Logic and Technology** (hereinafter EUSFLAT) is a non-profit European society devoted to promoting and disseminating the methods, techniques and developments of Fuzzy Logic and related technologies.

Both AEPIA and EUSFLAT aim to establish relationships with other societies with similar scientific objectives, believing that the exchange of information enriches their respective disciplinary fields and stimulates scientific development in general.

To this end, AEPIA and EUSFLAT hereby enter the following Memorandum of Understanding (MoU), which includes the following actions as a first stage:

1. Each Society will offer a 25% membership discount to those people who can prove they are members of the other Society.
2. Each Society will offer at their official society conferences (respectively CAEPIA and EUSFLAT) registration fees identical to those set for their members.
3. When the membership fee for a specified number of years is included in the conference registration fees —as is the case with CAEPIA— the discount specified for each year will be applied to members of the other society, who must provide proof of their continuous membership in that society during those years.
4. This Agreement will be published on the websites of both Societies to promote information interchange and collaboration between the members of both Societies.
5. This Agreement shall remain in force indefinitely unless terminated by either party.
6. Termination by either party shall take effect 7 days after notice is given.
